OYSTERS OF THE PACIFIC NORTHWEST

The cold waters of the Puget Sound create a perfect environment for growing oysters. While local commercially harvested oysters are farm-raised, the shellfish industry is unique in that it does not use herbicides, pesticides, or fertilizers for raising seafood products. The oysters are reared in 100% salt water and have no outside influence other than the water quality. We partner with some of the Puget Sound's most reputable farmers, like Johnson & Gunstone, Taylor Shellfish, J's Clearwater Shellfish, and more!

DID YOU KNOW?

OYSTERS ARE SUPER CLEANERS!

Oysters, natural filters, are crucial for global ocean health.

One oyster purifies up to 50 gallons daily, fostering a pristine environment for underwater grasses and supporting juvenile crabs, scallops, and fish on reefs.
