SUSTAINABILITY

is never done

As a family-owned company, Anthony's is committed to each community it serves. In addition to supporting local farmers, ranchers, wineries and fishermen, Anthony's works with other local vendors and businesses to support local communities.

"Water quality is also a top priority for the farm as it is crucial for the health of the shellfish. It's no surprise that Discovery Bay is home to some of the cleanest water in the Puget Sound. On top of the holistic farming practices, our farm has played a key role over the years in advocating for the stringent water quality policies in the area."

DID YOU KNOW?

THE PUGET SOUND IS PERFECT FOR GROWING OYSTERS!

The cold waters of the Puget Sound create a perfect environment for growing oysters. While local commercially harvested oysters are farm-raised, the shellfish industry is unique in that it does not use herbicides, pesticides, or fertilizers for raising seafood products. The oysters are reared in 100% salt water and have no outside influence other than the water quality. We partner with some of the Puget Sound's most reputable farmers, like Johnson & Gunstone, Taylor Shellfish, J's Clearwater Shellfish, and more - see the previous page to scan the QR code to watch a video about these local oyster farmers!

BEVERAGE PAIRINGS
